Experience

FRACTAL - Apr 2025 - May 2026

- Designed and maintained scalable **test automation framework** using **TypeScript and Playwright**;
- Developed **300+ automated tests** covering UI, API, and E2E scenarios;
- Achieved **90% automation coverage across core services**;
- Reduced manual regression testing time by **70%** through automation implementation;
- Integrated automated tests into **CI/CD pipelines using Jenkins**;
- Created and maintained test scenarios, test cases, and regression suites;
- Performed API testing using **Postman** and validated data using **SQL**;
- Collaborated with backend, frontend, and QA teams to improve product quality;
- Tested account management functionality including roles, permissions, and access control workflows;

Tech Stack: TypeScript, Playwright, Jenkins, Postman, SQL, Allure.

Clear Junction - Feb 2022 - Apr 2025

Access & Identity Team – B2B Payment Platform

- Developed automation framework from scratch using **TypeScript and Playwright**;
- Implemented automated UI and API tests following **OOP principles and Page Object Model (POM)**;
- Integrated automation into **Jenkins CI/CD pipelines**;
- Improved test stability by identifying and reducing flaky tests;
- Automated database data collection and generated Slack reports;

- Tested critical fintech workflows related to:
 - user access management
 - account structures
 - roles and permissions
 - corporate client operations
- Collaborated with developers and product teams during the full software development lifecycle (SDLC);

Tech Stack: TypeScript, Playwright, Jenkins, Postman, SQL, Allure.

RIA.com - Dec 2020 - Feb 2022

- Performed functional, regression, integration, and UI testing;
- Created and maintained automated tests using **Java, Selenium, and Maven**;
- Performed database validation using SQL queries;
- Created test documentation:
 - test cases
 - checklists
 - bug reports

Tech Stack: Java, Selenium, Maven, Allure, Jenkins, SQL.

Skills

Automation	TypeScript (Playwright), Java (Selenium), UI Testing, API Testing, E2E Testing, Page Object Model (POM)
Databases	 PostgreSQL  NoSQL
Tools	 Postman  Chrome DevTools  Charles Proxy  Sentry
CI tools	 Jenkins  Git
Language	English - Intermediate
Documentation	Test cases, Checklists, Bug reports, Test plan

Education

- Master's in Industrial Engineering – NTU KPI (2017–2022)

Hobbies

- Playing bass guitar ;
- Listening to podcasts, watching educational courses about QA and IT.
